PICTURES | GENERAL KNOWLEDGE | NAME THAT TUNE | NAME THAT DRINK

FOR MORE INFO VISIT ACREW.COM

ACREW LA CIOTAT, COMPOSITWORKS

ACREW's first European and Shipyard event of 2018 will take place in Compositeworks, La Ciotat. After our end of season event last November, ACREW returns for two days of learning and knowledge sharing. The exciting event will be packed full of invaluable workshops for all departments. A great opportunity for crew to meet fellow crew in the yard over lunch, a workshop or a happy hour, as the Summer season

approaches. During this edition we have added some focus on Engineers and ETO's as well. It all starts on Wednesday evening with The Pub Quiz. The Trophy will be up for grabs, as we will see yacht teams pit their wits and more against each other in a pub quiz challenge with a difference! Attending crew are also treated to lunch and our end of day happy hours.

LUNCH & DRINKS

Crew BBQ and Drinks! All event attendees can enjoy a free BBQ lunch from Riviera Gourmet and VSF Group. Damian and his team will be there to heat up the grill and cook you some mouth-watering burgers and sausages from the finest produce. Not to forget, we also have salads and a vegetarian option too. With a good BBQ you need a drink. That's why Claire is arranging the VSF Bar during the lunches and crew drinks for this event.

Besides the free lunches and drinks, we also have our famous ISS GMT Wheel of Fortune down at La Ciotat. There are a lot of prizes for lucky crew. Every crew member gets the chance to spin the wheel, so make sure you come down and get spinning!

Supported by: Heinen & Hopman, Liquid Yacht Wear, VSF Group & Riviera Gourmet

DEMO: INTERIOR TRENDS 2018

Keeping on trend in the world of interior design is of great importance for superyacht stews. Brigitte Abidaoud is available throughout the event to advise on any interior design questions. She will be running demonstrations on both days from 12:00 - 13:00 during lunch periods.

ACREW LA CIOTAT AT COMPOSITWORKS EVENT SCHEDULE

THURSDAY 15TH MARCH

08.30 - 10.00

Save a life: First Response to Medical Emergencies Introduction

MedAire

The experts of MedAire will once again deliver one of their very well received workshops. Part 1 will include:

- An introduction to assessing and treating a casualty onboard
- Factors to consider when treating a casualty at sea
- Steps to improve a casualties chances of survival and recovery
- A practical demonstration & opportunity to practice skills for controlling a life threatening bleed.

10.15 - 12.00

Bridge Systems Onboard Traditional vs Integrated

Admarel

For a number of years, the industry is seeing an increase in the installations of Integrated Bridge Systems aboard superyachts. This workshop will cover the ongoing developments with a comparison to the traditional bridge systems and the challenges that lie ahead regarding rules and regulations and the performance standards for Integrated Navigation Systems. The specialists of Admarel will also dive into 3rd party integrations and other developments regarding navigation systems. The last part of this workshop will focus on your experiences and the future of bridge systems.

12.00 - 13.00

CREW LUNCH

VSF, Riviera Gourmet, Heinen & Hopman and Liquid Yacht Wear

We're serving lunch! Come down to the Compositeworks Shed for a crew BBQ. We'll have tasty burgers, sausages, salads and a vegetarian option for everyone! We also have a selection of drinks and plenty of space to sit down and relax.

13.00 - 14.30

Rules for temporary admission and what to do if boarded by customs

YMCA

This must-visit workshop for Captains and Head of Departments will give you hands on guidance for onboard custom inspections. Common areas of interest for Captains include cash onboard, weapons, privacy rights, drugs and ultimately, liability. Learn what to say and what not to say in an honest, upfront discussion from those that know. Further topics will be explored in the realms of customs and VAT for superyachts and we will allow time for you to ask all your questions.

14.45 - 16.15

Big Boats, Big Data: What HTS Can Do for Superyachts

KVH

How do you make sure guests feel at home onboard? And how are you attracting the best crew who are digital natives are all part of this inspiring workshop. As you know, internet technology and the expectations for communications and connectivity are forever evolving. We tackle the latest challenges and discuss how HTS applications are providing must have solutions for owners, crew and passengers.

14.45 - 16.15

Caviar & Canapés

The Crew Academy

We explain the difference between Canapes, Hors D'oeuvres, Vol-au-vents, Tapas, and the according serving styles, communication techniques between the Chef and the Guests. After this workshop you will understand different ways in which to prepare the palates of your guests with 7-star service and confidence. There will be tastes to tantalise your minds and Caviar to taste and match drinks with as an added bonus.

16.30 - 18.00

Cleaning and Maintenance for Yacht Coatings

Jotun

The technology involved in paint and coating is fast moving and complex and legislation continues to affect the products used. Attendees will learn about paint technologies and what they mean for crew in their day to day work of maintenance and cleaning. The workshop will cover polishing and waxing as well as how to take care of specific painted surfaces without making potentially expensive mistakes.

FRIDAY 16TH MARCH

08.30 - 10.00

Save a life part 2: Diagnosis of hypoglaemia (low blood sugar) onboard

MedAire & RDT

In Part 2 MedAire, in partnership with RDT, will help you understand the dangers of low blood sugar including the causes, symptoms and treatment. Participants will also experience a live test call via the Tempus IC2 telemedicine device to MedLink and review the basics of first response and telemedicine to a medical emergency onboard.

10.15 - 12.00

Proactive Management for Onboard Fuel & Oil Systems

MTA

Have you experienced black diesel fuel or clogged fuel filters? This workshop investigates the proactive solutions for improving onboard fuel and oil systems. With high operating fuel pressures and tight tolerances we take a look at onboard sensors and their importance in optimising engine performances and fuel efficiency.

12.00 - 13.00

CREW LUNCH

VSF, Riviera Gourmet, Heinen & Hopman and Liquid Yacht Wear

We're serving lunch! Come down to the Compositeworks Shed for a crew BBQ. We'll have tasty burgers, sausages, salads and a vegetarian option for everyone! We also have a selection of drinks and plenty of space to sit down and relax.

13.00 - 14.30

Superyacht Lifts - Reliability and Testing for onboard crew

HML

This technical workshop focuses on the relevant Code of Practices for superyacht lifts. Holland Marine Lifts will explain the various guidelines on lift usage, maintenance, examinations and trouble-shooting. The workshop is designed to test your problem solving skills, providing key insights in detecting and preventing mechanical failures on various lift systems.

14.45 - 16.15

How well do you know your wine?

VSF Group

Single varietal wines make up the vast majority of wines served onboard but can you differentiate one from the other? A fun and informative way to learn about wine and how they should taste is to blind taste them. Can you correctly identify wine just by colour, bouquet and taste?

16.30 - 18.00

Harnessing AV/IT systems, troubleshooting, anticipating and optimizing mobile devices onboard for happy guests

BEE

Get a global view of all components behind frequently experienced issues with Internet, WIFI, Remote Control, Home Automation onboard. Learn how to troubleshoot, including listening to users' complaints, basic sub-systems check, efficient dialog with ETO or the engineer in charge of the systems and being able to come back to users with a positive and supportive attitude.

16.30 - 18.00

Marvelous Marble

The Crew Academy

We will explain the origins, types, refining processes and caring management procedures to help ensure that your marble is always looking marvellous. You will be shown different types of marble and the correct products to use on it and leave the workshop with a much greater understanding as to why it is such a large part of our interior products onboard.

Go to acrew.com and register for the free event and any workshops you'd like to attend.
