ACREW ANTIBES AT PORT VAUBAN, FRANCE

ACREW returns to Antibes on the 11th and 12th October this year for a two-day event full of learning and knowledge sharing. Demonstrating a commitment to crew advancement and learning, this event will be filled with invaluable workshops for all departments. Hosted in the arches of the historical city wall, a relaxed and friendly atmosphere will be created exclusively for the ACREW community.

It is a great opportunity for crew to meet fellow crew over lunch, a workshop or a happy hour, as the Winter season approaches.

ACREW is also providing some great one to one advice from a range of experts on important personal Superyacht topics.

If your interested in attending the event - sign up on www.acrew.com for free now and reserve your spot! Don't miss out!

CREW CONSULTATIONS

You can book your consultations on the Events Page on www.acrew.com!

Lunches on Thursday & Friday

12.30 - 14.00

BBQ, Braai, Barbie - call it as you wish! Join us for the ULTIMATE lunchtime grill. Drinks will be flowing, tunes will be playing and the sun will (hopefully) be shining over beautiful Port Vauban. See you there! Vegan and vegetarian options available. Food by Boucherie Fabre and drinks by the famous VSF Bar.

ACREW ANTIBES AT PORT VAUBAN, FRANCE
EVENT SCHEDULETHURSDAY 11th OCTOBER

09.00 - 10.30

Courageous Conversations
Crew Glue

Suitable for all crew. When we have conflict on-board, whether that be with guests, owners or our own crew – we will respond in several different ways. In this session we take a light-hearted look at what happens, why and what to do about it! We will share some simple tips to help you to manage your relationships with your fellow crew, and some techniques for dealing with conflict when it comes from your owner or your guests. Fun and laughter guaranteed along with some really useful learning...!

09.00 - 10.30

Super Systems for Superyachts
Akumendo

Akumendo will be showing crew members all there is to know about their state-of-the-art user interface's for Guest and Crew AV IT systems on board. An invaluable workshop for Engineers and Chief Stews. Learn how using a virtual guest book will save hours of time and how the App can aid you in simplifying watch schedules. Give their alert system a try which can be used to communicate with guests as well as internally with crew.

10.45 - 12.15

Marvellous Marble
The Crew Academy

During this workshop you will be educated about the different types of Marble you are exposed to on Super Yachts and are expected to care for and maintain in peak condition. You will learn of what makes Marble different to other stones and why it needs to be treated in such a special way. You will also learn the different Origins of Marble, Colours, How they get the Veins and Swirls, Mining Process, Different Finishes and Care Management to help ensure that your Marble is always looking marvellous. You will develop a much greater understanding of the correct products to use on Marble and why it is so important to the successful maintenance of the interior.

10.45 - 12.15

Minor Wound Care and Suturing: The Basics
MedAire & RDT, a Philips Company

In this short introductory workshop, we will look at the basics of treating those frequent minor bumps and scrapes that occur onboard, and have a practical session on suturing to refresh your skills. We will also review major bleed management to ensure you feel prepared capable and confident in all eventualities. In conjunction with RDT, a Philips Company, we will look at taking vital signs and calling for assistance via the Tempus IC2 unit.

12.30 - 14.00

Lunch

BBQ Time!
Sponsored by VSF Group, Boucherie Fabre, Heinen & Hopman and Graze

14.00 - 15.30

Bio technological Products: Teak maintenance, Odor Elimination & Waste Water Treatment
Nautiel Services

This interactive workshop will outline great power of biotechnological maintenance products while caring about the environment. TEAK – The properties of teak wood, why stains appear and how to maintain and clean it. With plenty of real teak for crew to get their hands on, Nautiel Cleaning Services will share their expert tips and tricks with all manner of stains, wear and tear and maintenance issues. Biological teak cleaner is the new frontier in cleaning technology as it is non-toxic, easy to use and environmentally friendly. Crew will have the opportunity to try this out live in the workshop. ODORS and WASTE WATER TREATMENTS. Once more, biotechnological products make the difference, solving some of the biggest matters on board, in a completely new approach, totally efficient and environment friendly using the power of the nature.

14.00 - 15.30

A helping Hand trough Customs
YMCA

Customs. Can you be too prepared? In YMCAs interactive workshop you will learn how to tackle situations such as having cash, weapons and drugs onboard, investigate your privacy rights, and your liability. You will be exposed to how you should communicate with the officers themselves and examine the realms of VAT for superyachts. The session will conclude with an open Q&A, where the team at YMCA, alongside other experienced captains and officers will share their genuine experience and knowledge to help you cope with customs next season!

16.00 - 17.30

Connectivity Trends & Challenges 3 Ways To Improve Guest Experience And Superyacht Operations
KVH

Expectations for communications and connectivity are changing with new developments such as the Internet of Things, an increased demand for more data onboard, and the need to safeguard against cyber security threats. This informative workshop for Captains, Engineers, First Officers, and ETOs will cover connectivity trends and challenges impacting today's communications onboard, and discuss three ways to leverage connectivity to improve guest experience and superyacht operations:

- Understanding data consumption
- Guarding against cyber threats
- Managing all the devices onboard

16.00 - 17.30

Can you Taste the Diffence?
VSF Group

Come and taste your way across the globe! We will be showing several wines in a blind tasting from the 'New' and 'Old' World, to see what their main differences are. Fun, relaxed and informative with a glass of wine or three, what better way to learn something new!

16.00 - 17.30

How do I get a B1 Visa?
AYSS

B1 visas - a headache for so many crew! Join us in an interactive workshop to learn all there is to know about applying for B1 Visas. Hosted by the expert, Debora Radtke from American Yacht Agents, who was recently on a panel with the Department of State and CBP. A real insight into the requirements is explored. Without proper knowledge on applying and protecting your status things can rapidly get complicated for crew. Participate in a Q&A session to conclude the workshop and get all your missing answers. 17.30 - 19.30

HAPPY HOUR
VSF Group

Let's come together for drinks after a day of learning. Meet the crew docked right next to you and get to know them! The famous VSF Bar is open for us with beers, wines and soft drinks.

FRIDAY 12th OCTOBER

09.00 - 10.30

Event Planning and Destination Management
The Crew Academy

For this Event Planning and Destination Management Workshop, crew will be informed of what it takes to plan the perfect guest trip and what it takes to create the most memorable and smooth event your guests have ever had. We go through information presentation to guests (and the best way to do it), what a Guest trip entails including; planning, provisioning, budgeting, staffing, entertainment, menus, and more, followed by the chance to create their own DREAM event for their guests in a setting or location that may not be the most convenient or accessible being on a yacht. A successful guest trip and smooth events can stay with your guests for life!

09.00 - 10.30

Anti-Fouling Technology
Jotun

A Hull of a subject – With Jotun leading the market in marine anti-fouling technology, the workshop will enable the attendees to further understand how the technology of anti-fouling is continuing to improve and meet the demands of the unique superyacht market, enabling them to benefit from an increase in operational efficiency.

10.45 - 12.15

Captain and Coach
Crew Glue

The holy-grail of leadership is getting your crew to a place where they can manage their working day without you, freeing you up to do your own job. The way to achieve that is to use the right style of leadership for the individual. One of the most effective is coaching. In this session we will share a simple format to follow which you can use from the moment you walk back on-board. This high energy interactive and very practical session will give you everything you need to start coaching your crew to deliver results with the minimum of supervision.

10.45 - 12.15

Learn the What Why and How of the Property Industry
Anchor Property

What are your goals in yachting, for many crew making their money work harder is one of them. Hosted by a former yachtie who is now a full-time property investor, this workshop will cover the in's and out of investing your money in UK property, starting with the very basics. Anchor Property provides bespoke property services to crew of almost all nationalities, allowing them to invest in the UK. They will be available for the duration of the event to discuss property tax, mortgages and the many benefits of property investment.

12.30 - 14.00

Lunch

BBQ Time!
Sponsored by VSF Group, Boucherie Fabre, Heinen & Hopman and Graze

14.00 - 15.30

Is your Superyacht up to date with the latest Trends in Interior Design?
Blue Diamond Decorating

Whether you work on a private or charter boat, guests will be truly impressed if your interior is following the latest fashion. Blue Diamond Decorating provides an interactive workshop about a modern look on board through studying the changes in interior fashion. You will take a look into the performance and sustainability of the different materials over time when exposed to the sun or spillages allowing you to assess which may be most practical on board your yacht. Feel free to bring along photos of your interior you may want knowledgeable advice on and for futur collaboration!

14.00 - 15.30

Cybersecurity – How the Industry should be viewing Cyber Security going forward
Admarel and FWD Innovations

Cybersecurity – how the industry should be viewing Cyber Security going forward (By Admarel)
Superyachts can easily be seen as just fun places for having a good time, but it's when people relax and let their guard down that they are most vulnerable. Superyachts are highly sophisticated pieces of equipment to which people entrust their safety, security and privacy. Cybersecurity is an important part of that. Cyber attacks are steadily increasing in the maritime sector at large, and a number of private yachts have already fallen victim. It is only a matter of time before superyachts start attracting more attention from cyber criminals. Are you prepared?

- The challenges facing superyacht security
- Risks and threats and taking precautions
- Further recommendations in what to do against cybersecurity

16.00 - 17.30

Fracture Management and Spinal Immobilisation
MedAire & RDT, a Philips Company

In this short introductory workshop we will refresh your knowledge of onboard fracture management and spinal immobilisation equipment, and consider how these devices will assist you in managing a casualty onboard for a number of hours, and things to consider in the event that you need to transport them around the vessel. In conjunction with RDT a Philips Company, we will explore the importance of monitoring patient vital signs, and demonstrate how these can be live streamed to shore with Tempus IC2. In conjunction with RDT a Philips Company, we will explore the importance of monitoring patient vital signs, and demonstrate how these can be live streamed to shore with Tempus IC2.

16.00 - 17.30

Sail trough your Deck Qualifications with the PYA
PYA

The Professional Yachting Association (PYA) provides an insider guide on how to prepare for and apply for your OOW. The workshop will cover:

- The application process for MCA NoE leading to a CoC
- Required certificates for application for OOW 3000
- Certificate updates, expiry dates and limitations
- Sea Service – how to record sea service, good practices, verification, testimonials
- Training Record Book (for Yacht Ratings and OOW3000) - guide on how to complete your TRB, do's and don'ts, essential tasks and assessments
- Training: prerequisites, guidelines on how to get the most out of your courses and exam expectations.

The most recent information and updates will be shared about the required qualifications for the next step on your career and qualifications ladder

17.30 - 19.30

HAPPY HOUR
VSF Group

Let's come together for drinks after a day of learning. Meet the crew docked right next to you and get to know them! The famous VSF Bar is open for beers, wines and soft drinks.
